CLARIFICATION ON THE ADVANCED SECONDARY CURRICULUM

The Ministry of Education and Sports (MOEs), through the National Curriculum Development Centre (NCDC), reviewed the Advanced Secondary (A'level) Curriculum to make it competency-based and learner-centred.

The curriculum was rolled out in February, 2025, and is currently being implemented in schools. The first cohort of learners will graduate at the end of 2026.

NCDC wishes to inform the public that we are committed to disseminating updates about the above-captioned subject matter through our official platforms.

Dr. Bernadette Nambi Karuhanga
